

**2008 Virginia General Assembly
Legislative Report
2/23/2008**

Ugly is breaking out in the Virginia Senate, where once upon a time all was peace and solidarity. But this past week the now democrat-controlled Senate broke decades of tradition by not voting as a chamber in support of the Senate's version of the proposed state two-year budget. Instead, the Senate's budget bill was approved on a strict party line vote, after some fairly nasty floor debate, 21-19. On the House side, that body stuck with tradition and after everyone had their say, the House proposed budget was approved 93-5. Again in sharp contrast to recent years, the Senate is now the body that is deeply fractured along party lines, a fact that weakens them in any negotiations - be it budget or other legislation - with the House.

What's in the three competing versions of the 2008-10 budget for transportation? NOT MUCH!

Governor's Proposed Budget - Cut \$180 million and use future projected future state income to pay it back later.

Senate's Proposed Budget - Raise \$150 million by raising the gas tax a penny each year.

House Proposed Budget - Raise \$180 million through debt (bonds)

What the probable outcome?

The Governor's proposal stands a slim chance of passage,

The Senate proposal in dead on arrival.

The House proposal seems to stand the best chance of passage at this time.

MOST IMPORTANTLY, NONE OF THESE PROPOSALS EVEN COME NEAR ADDRESSING THE TRANSPORTATION FUNDING SHORTFALL FACING THE COMMONWEALTH!

I also spent a considerable amount of time last week trying to amend SB 189 which is being proposed at the request of many northern Virginia localities and seeks to substantially increase the level of force account work that can be done with both state and local forces statewide. VUHCC wrote the language two years ago that a) allowed localities to do their own work up to \$650,000 only after they have put that work out to bid and not received at least two viable bids and b) kept the VDOT force account cap at \$300K. SB 189 proposed two changes.

First it would raise the \$650K to one million dollars. After receiving assurances that there would be no move to delete the "two bid" requirement, I signed off on that change.

But the second change included in the bill upped VDOT's force account limit from \$300K to one million dollars as well, and there is no requirement to seek private sector bids before using state forces for this work. In addition, VDOT suggested that SB 189 be amended further to allow the one million dollar amount to be indexed annually in order keep track with inflation.

VUHCC objected to this substantial increase in the ability of VDOT to do force account work, especially given the lack of work many of our members are currently facing. After lots of discussions with the bill's patron, representatives of northern Virginia, and VDOT, I was able to negotiate increasing the VDOT force account limit to \$600K, which is what the number would be if an inflation factor was applied since the \$300K as established in 1986. We opposed any indexing provision because of the difficulties in implementing such a change annually.

In this amended form, the bill was voted out of the House Transportation Committee Friday. If it passes the House with our language it must then go back to the Senate for them to approve our amendments. I believe that will occur and the bill will pass with our changes.

On other matters:

HB 1472 which said that discharging or taking other employment-related action with regard to an employee on the basis of the employee's failure or refusal to comply with a requirement of the employer that English be spoken or used while at work shall not be deemed to constitute discrimination on the basis of national origin sailed through the House but died in a Senate Committee on a 7-7 tie vote. Because Virginia is as "employment at will" state, VUHCC took no position on the bill.

HB 1551 Requires VDOT and DMV to conduct a review of the road damage caused by certain trucks. The review shall endeavor to determine what, if any, additional fees should be associated with regard to the damage and additional maintenance costs caused by such overweight and overloaded trucks and what mechanism is best suited for the collection of such additional fees. Based on this review, the

Commissioner of the Department of Transportation, in consultation with the Department of Motor Vehicles and affected industry representatives, shall recommend legislation regarding the fee structure applied to overload and overweight vehicles operating on the highways of the Commonwealth to the Governor and the members of the Senate Finance and Transportation Committees and the House Appropriations and Transportation Committees no later than December 1, 2008. VUHCC is not sure where this legislation, if it passes, might lead but we are striving to ensure the bill retains the language requiring "industry representatives" be a part of this process. Currently the bill has easily passed the House and is resting before the Senate Transportation Committee.

Next week, more on the budget and a look at the light at the end of the tunnel - adjournment on March 15th.
