

2011 Virginia General Assembly Session

Legislative Report 1/30/2011

Please find below this week's legislative update. As we approach the mid-point of the session some very important bills will be up for committee votes this week including the session's major transportation funding legislation, bills requiring Virginia employers to take additional steps (E-Verify) before hiring employees, and proposed changes regarding the procedures and notices a sub/subcontractor must comply with in order to take action on the prime contractor's payment bond. All of these proposals are highlighted below.

Mark Singer

Transportation Funding:

The House Appropriations Committee and the Senate Finance Committee are expected to take up the Governor's transportation package this week. HB 2527 sponsored by Speaker Bill Howell (R-Stafford County) and SB 1446 patroned by Senator William Wampler (R-Bristol) and Senator Chuck Colgan (D-Prince William County) would generate over \$4 billion to fund road and transit projects over the next three years using primarily bonding and general fund revenues. While it appears likely these funding bills will emerge from Committee, and will be embraced by a majority in each chamber, it is unclear what the House and Senate bills will contain or if the \$4 billion figure will be preserved in each of the chamber's version of the legislation.

Members of the House Appropriations Committee have complained that the sheer size of the package will force the Commonwealth to violate its self imposed debt ceiling of 5%, which some have argued could compromise the state's prized triple A bond rating (Governor McDonnell maintains that such arguments have no basis, particularly since the Governor visited with the rating agencies prior to the session and was told that other triple A rated states have a debt ceiling higher than Virginia's 5%. The Governor also reported that the rating agencies viewed significant investments in infrastructure as a prudent use of debt). The political consequences related to embracing a package that relies exclusively on debt is troubling to some Republicans who worry about possible nomination battles on the horizon with more conservative elements within the Republican Party. Members of the Appropriations Committee have indicated that the package might be amended to ensure that the 5% ceiling is preserved.

Members of the Senate have voiced similar concerns regarding the package's reliance on debt (Senator Dick Saslaw's SJ 361 and SJ 396 are Constitutional amendments that are a direct response to the Governor's bonding package, and would limit the ability of the state to go higher than the 5% debt ceiling). It appears that Senate Democrats' main objection to the bill is the use of general funds to capitalize the newly created infrastructure bank (\$150 million). The Governor's administration has argued that the \$150 million is surplus revenue, and can not really be considered general funds. This explanation has done nothing to satisfy Senate Democrats. One of the amendments that seem certain to be pushed by Senate Democrats will be the removal of the \$150 million for the infrastructure bank.

Other Bills of Interest:

Electronic Work Verification Program:

As expected, a special House Subcommittee on immigration recommended reporting three E-verify bills on a 4-2 vote (all five Republicans supported the bills, while the two Democrats on the subcommittee opposed the measures). VUHCC along with a coalition of industry groups spoke against all three bills. The bills that were approved by the Subcommittee were:

- HB 1727, sponsored by Delegate Bill Carrico (R-Grayson County), requires public contractors and employers with 15 or more employees to enroll in the E-Verify Program for newly hired employees. Employers and contractors that fail to do so are subject to suspension or revocation of permits and/or licenses issued by either the state or local government. Failure to use the E-Verify Program by an employer will also result in the invalidation of any public contract. The bill initially had an effective date of December 1, 2011, but after discussions with VUHCC lobbyists, the patron moved the effective date back to December 1, 2013.
- HB 1859, sponsored by Delegate Rich Anderson (R-Prince William County), directs state agencies to include in every contract over \$50,000 a provision that requires a contractor to use the E-Verify program. This bill has an effective date of July 1, 2011, which puts it into conflict with HB 1727 (although the patron has told VUHCC lobbyists that he would be willing to place an effective date of December 1, 2013).
- HB 2333, sponsored by Delegate Scott Lingamfelter, provides that in the event of a tie bid, a preference will be given in the bid process for contractors employing the E-Verify Program.

The Senate has two E-Verify bills that are identical. SB 1049, sponsored by Senator George Barker (D-Fairfax County) and SB 1288, sponsored by Senator Jeff McWaters (R-Virginia Beach) require all public contractors and their subcontractors to register and participate in the E-Verify Program. Contractors who do not register and participate in the registration program are ineligible for prequalification. VUHCC lobbyists, along with other business and industry group representatives, met with Senators Barker and McWaters to share our concerns over these measures, which included the effective date of the bills (2011, despite the fact that the Commonwealth will not begin using the E-Verify Program until 2012), the inclusion of subcontractors and independent contractors in the requirement (a prime contractor can not ensure that their subs or independent contractors are utilizing the E-Verify Program), and the debarment provision. The Senators have indicated a willingness to offer amendments to try and address the deficiencies in the bills, but they have indicated that if they do so, they would expect the broader business community to abandon their collective opposition to the measures.

At this point, it is likely the E-Verify bills will pass the House. The outcome in the Senate (which has traditionally opposed such legislation in the past), is more uncertain. The bills are currently in the Courts of Justice Committee, and will likely be acted upon this week.

Corporate Income Tax Change:

Delegate Dave Albo (R-Fairfax County) introduced HB 1604, which changes the way the sales factor is determined for purposes of the corporate income tax. The change will move the Commonwealth from cost-of performance method to a market-based sourcing method. The practical impact of this change will be to levy the corporate income tax on out-of-state companies that provide services in Virginia. The change will by and large benefit in-state service providers and penalize out of state service providers. Delegate Albo's bill would dedicate the additional corporate income tax revenue (estimated to be as much as \$250 million a year once fully implemented) to the Highway Maintenance and Operating Fund. Since the bill creates a number of winners and losers from a tax perspective, it is difficult to ascertain how much support the measure has at this point. A number of House Republicans are worried that the bill may be viewed as a tax increase, which could make its passage in the anti-tax House Finance Committee unlikely.

Actions against contractor's payment:

The Chairman of the Senate General Laws and Technology Committee, Mamie Locke (D-Hampton), introduced SB 1424, which enables a claimant who has a direct contractual relationship with a subcontractor but no contractual relationship with the contractor to bring a legal action on the contractor's payment bond if several conditions are met. VUHCC lobbyists have been working with the representatives of the Associated General Contractors, who requested that this bill be introduced, to ensure that the interests of VUHCC's members are protected.
